## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 7 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Slavin.

Slavin's residue number system uses different factorized bases, i.e. the factorization base is variable, wherein the numbers or factors are prime relative to one another, e.g. note the "four prime numbers" of the abstract.

### *Claim Rejections - 35 USC § 112*

3. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-9 are required to be rewritten in accordance with U. S. practice, i.e. a method claim should basically be a sequence of actively performed steps. In line 3 of claim 1 the phrase "making the factorization base variable" lacks meaning because context is totally lacking.

Claims 2-5 and 8 are the recitation of function without the recitation of the step(s) that are necessary to effect the function. In claims 6 and 7 the meaning of the phrase "The method of claim 1, applied to input data" lacks meaning. Claim 4, line 3; the word "preferably" clearly

makes the claim indefinite. The phrases "said base", claim 9, "said selection circuit", claim 10 and "the calculation circuits", claim 11 lack clear antecedent basis.

### *Specification*

4. The specification should have a section titled "Drawing".

### *Conclusion*

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H. Malzahn whose telephone number is (571) 272-3727. The examiner can normally be reached on M-Th from 7:30 to 6:00.
